Montgomery Blair, 1963 . . .

In 1935, Blair's first students found a challenge here.

Although the challenge has always been here to inspire us, it is up to each individual to recognize it for himself, and to realize his own need to meet it. Each goal, each method will be different, for each of us is different . . . but the wonderful part about our challenge at Blair is that it is so broad and flexible that each of us can find his own special duty to meet it.

The challenge makes us want to better ourselves, to develop our talents to the fullest . . . to become contributing members of our society.

Year after year this challenge has inspired the Blairite, and in meeting it, he has created an image of and a high standard of performance for our school. He has felt a certain duty to meet the challenge because of Blair's image, but he has also realized the need to meet it for his own development.

This year it is our turn to fulfill Blair's challenge . . .

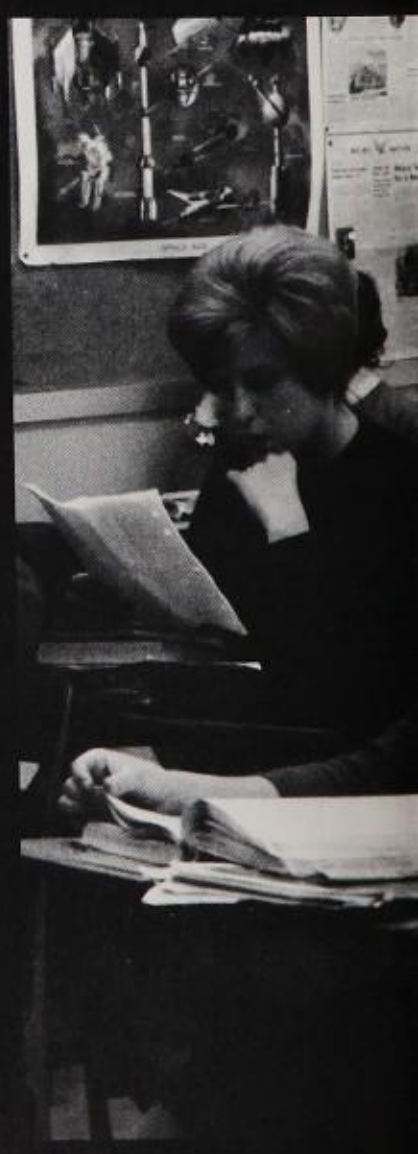
Dawning of a New Challenge



. . . the realization of our purpose at Blair . . . the end of the beginning.

MR. WAGNER'S MESSAGE

To the Class of 1963

Never before in the history of our country has there been so great a need for wise leadership and constructive thought among our younger generation. Clear and logical action will be demanded of our future leaders no less than it is today. As the years pass, we realize that education must be a constant pursuit, whether it be gained in a classroom or in the wider university of daily living. Inquiry in all fields has added so much to the field of knowledge that we can hope to attain and utilize but a small portion of it in a lifetime.

We hope you will feel, as you look back to your high school years, that your classes and activities at Montgomery Blair have given you a firm foundation upon which to build the knowledge that you will acquire and use from day to day.

To you who are members of the Class of 1963 go our best wishes for success in your chosen fields, and our confidence that the contributions which each of you will make in his own way will provide the leadership required of the times.

Richard E. Wagner

MR. WAGNER . . . counseling for "wise leadership and constructive thought" . . . Ned Blackwell, Senior Class President.

THE GRADUATING CLASS . . . "realizing that education is a constant pursuit . . . a firm foundation upon which to build future knowledge."

Chère Anita
Good start, I really have enjoyed having you in class. Also so much fun in French I bet it's great together this summer. See you there.
Love,
Barbara Shepard.

Anita
You're a real doll and I don't know what I would have done if you weren't here to borrow paper, erase, etc from. All kidding aside I have enjoyed knowing you & a good summer
Love
Eileen

Anita,
Must admit that 10th grade French wasn't as wild as 8th grade English, but I'm glad I had a chance to see your smiling face once in a while.
Have a great summer and see ya next year! Hope we get Leeson for English.
Love ya!
Sharon

Anita,
It's been real being in class with you this year. Even though I got an A I'm sure I'll be all the luckier in the future if you don't know everything upon departing. Hope to see you well along in success. Hope to see you next year.
Love ya!

Anita,
It's been wonderful knowing you this year in the English class. I'll see you next year. I hope I'll see you in the best of health.
Love ya

... in realizing the necessity of learning, and contributing, and sharing, the Blairite has accepted his challenge here. But it is in his day-by-day effort, his spirit and his over-all achievement that he has fulfilled Blair's challenge.

This challenge offered the student a great opportunity for personal satisfaction as it was a personal challenge. Blair offered a challenge broad enough to include all fields of student interest . . . it was up to each student to find his own place. In finding it, and fulfilling his challenge he matured and developed into a fuller individual. And in growth, there is satisfaction.

Each former class has added a little more to Blair and the challenge, and now ours has added its own measure to the heritage of future Blairites. Each of us realizes that his fulfillment of the challenge has enriched not only Blair but also himself.

That may well be the purpose of Blair's challenge . . . in fulfilling it each of us begins to see his own worth as an individual . . . an individual better prepared by his experience at Blair to fulfill life's greater challenge.

Anita,
Best of luck to the last dentistry student in the room
may success follow you.
Jeff Burks

Anita,
It all started last year when I starting moving my ~~seat~~ seat in homeroom to chat with you. Well, this year we have become pretty close friends and I consider you one who I can confide in & go to to cheer me up. I love everything about you - your personality, actions, & most of all your character. You are a person who will tell a person the truth in whatever you say to them. You are an intelligent person and can give some useful and helpful advice. I feel I can turn to you for all my problems knowing I will get in return sincerity. I really hope that our friendship lasts forever and ever and grows and grows. I could fill up this page plus two others saying nice things about you, but I won't take up all the room. Both you and Gale have made this part of my life bright and gay - just as it was in Balto. (even better) I really love you (not in a queer way) & I hope you value my friendship just half as much as I treasure yours.

Love,
Maureen

Anita,
I hope we remain friends for many years. Always stay as nice as you are and good luck in all you do.
Best of Everything
Estelle

My Darling Anita ——
We have been good friends for only a short time but I have had a ball and I feel like I have known you a lifetime (of fun). I hope we will always be great and close friends - back in your senior year. Have a ball.
Love always

Anita,
Even since I met back a few years ago I've enjoyed knowing you and have felt that you were a wonderful person. (Even if you do like to get tests early in Chemistry)
Best of luck in the future.
Love,
Buddy

Anita,
It's been great this year in U.S. Hist, Math, French & typing - Just a coincidence that I take typing without you. I'm glad I'm going to take typing next year. It should be a lot of fun. Be good this summer & maybe I'll see you some time
